

Delegated Prior Authorization Support

Workforce Augmentation, Increased Operational Efficiencies, Cost-Effective Treatment

Health and managed care organizations use prior authorization (PA) to ensure patients receive the most **clinically appropriate** and **cost-effective medication** for their condition.

ForHealth Consulting delivers a **seamless, transparent, independent operation**, enabling them to meet these goals.

Current Payer Marketplace

4,000
products in the
U.S. medicine
market

\$487B
dollars of
spend in 2024

91%
of employers
leverage PA
for access to
appropriate medications

Challenges & Considerations

Specialty medicines account for 54% of spending, driven by immunology, oncology, and **GLP-1 agonists, and biosimilars account for 24%** of the competitive volume.

GLP-1 drugs strain health plan and PBM operations; when covered, **81% of employers require PA.**

Despite rising AI tools, **pharmacist-led PA review remains indispensable**—many costly therapies will continue to require independent deep clinical expertise.

ForHealth Consulting's PA Expertise

- **Clinical-driven review:** Experienced, independent support for the PA decision-making
- **Efficient process implementation:** Risk minimization of performance guarantee penalties
- **Lower administrative costs:** Reduced operational overhead

FY2025:

110,000 PAs
processed within
24-hour decision
turnaround time

ForHealth Consulting's additional pharmacy services include:
